

Collaging into... Zines

Students will read and understand the concept of the excerpt from "The Medium is the Massage" by Marshall McLuhan.

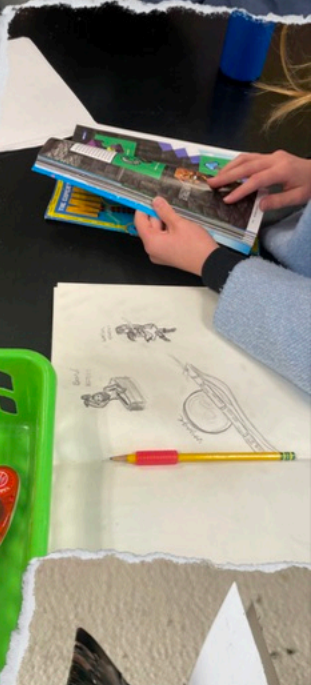

Students will develop creative and critical thinking skills through the creation of their collage.

Vocab List Perception

<i>Media</i>	<i>Context</i>
<i>Medium</i>	<i>Collage</i>
<i>Image</i>	<i>Layout</i>
<i>Text</i>	<i>Zine</i>

Students will enhance their collage by adding text to their zine content.

Students will present their zines to the class and engage in a discussion about the various interpretations and messages conveyed through the zines.

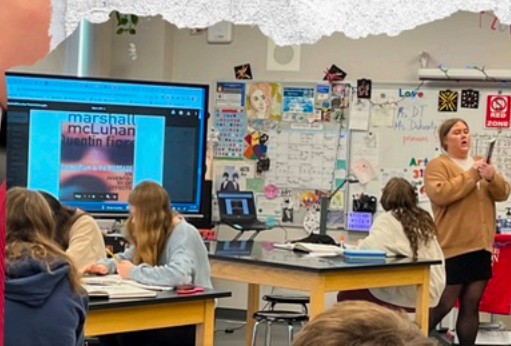

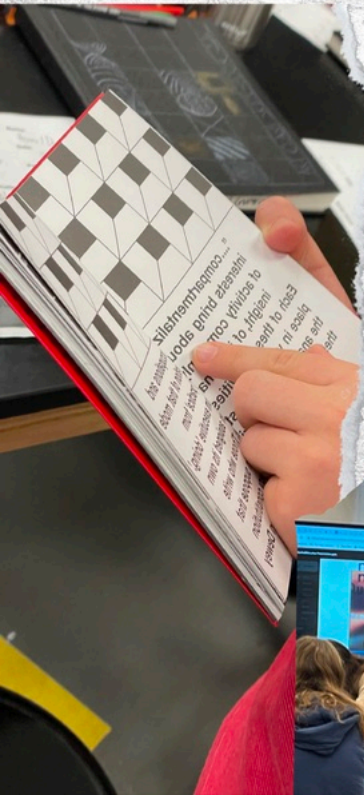

Collaging into... Zines

2 Day Lesson Plan

In this 2 day lesson plan students will explore the concept of media and communication through an excerpt of Marshall McLuhan's "The Medium is the Massage." Students will create their own zines, by creating a collage that reflects the impact of various media on society and personal expression.

Students will not know their collage will become a zine until the collage is completed. Through this project, students will gain a deeper understanding of how media influences culture and individual identity and how images connect with the message.
